IF THE COMPLAINT FORM IS NOT RETURNED WITHIN 14 DAYS OF RECEIPT, THE COUNCIL WILL BE OF THE UNDERSTANDING THE BARKING IS NO LONGER A NUISANCE TO YOU AND IT WILL BE TAKEN AS RESOLVED
Introduction
Dogs are an important part of our local community, but dogs that bark excessively can become a source of irritation for neighbours and others using the local environment. Our best friend can, if it barks continually, become an intrusion and creates friction between neighbours.

The Mount Barker District Council receives numerous complaints regarding nuisance noise from barking dogs. Approaching the dog’s owner in a neighbourly manner and discussing your concerns with them sometimes easily resolves this type of complaint.

The dog’s owner may not realise that the barking is causing an annoyance to other people.

- The dog may only bark excessively when the owner is not home.
- The owner may not hear the barking from various areas within the house.
- The owner may be a very sound sleeper and not woken when the dog barks.

Why dogs bark
Dogs bark for many reasons, and even though they appear to be 'barking for no reason' they are in fact trying to communicate something to their owner or anyone who is willing to pay attention.

The following are some of the main reasons why dogs bark:

- lack of exercise and training
- inadequate yard space,
- boredom,
- not enough human companionship,
- inadequate shelter from weather conditions,
- hunger or thirst,
- a medical condition,
- provocation,
- disturbances,
- changes to family structure, or
- movement outside the dog’s property.

Of course dogs also bark to alert their owners of trouble, such as an intruder entering the property or perhaps a fire. Remember, a dog's idea of an 'intruder' may differ to that of the owner. It could include cats, possums, other dogs, or even birds flying across the property.

Whilst it is acceptable for a dog to bark to warn its owner of an intruder, it is the owner's responsibility to train the dog not to bark at 'normal' occurrences such as possums, cats or birds.

Barking at normal movements or noises from adjoining properties should be considered to be unacceptable behaviour.
Neighborhood communication

Neighbors can help each other to solve barking problems by communicating to each other their concerns and needs. Neighbours can assist by identifying the reasons for excessive barking and noting what is happening in the area when the dog is barking.

A neighbour may be in a position to offer to exercise a dog when its owner is unable due to work commitments, illness or other reasons. Consider approaching your neighbour and offering this service. It will also help build your relationship with the dog. Don't forget, the owner of the offending dog may not know the animal is causing a nuisance.

Try the following steps to attempt to resolve the issue in a neighbourly manner:

1. Approach the dog's owner when the problem arises and state your case clearly and politely. He or she may not be aware of the barking situation. If the dog owner is unapproachable or you are not comfortable approaching them, try placing the 'Dear Neighbour' letter contained in this booklet into their letterbox.

2. If the neighbour takes no action or does not agree that a problem exists, you may want to contact the Legal Services Commission of SA which funds a dispute settlement service for people who find themselves in a situation of dispute or conflict with another person.

3. This service uses mediation as a way of settling neighbourhood disputes without expensive legal action. It is a private and free service. The service offers specially trained mediators who will help you both find a workable solution.

In most cases the solution can be found by communication between neighbours and should be sought prior to lodging a complaint with your Council.

Dear Neighbour,

You may not be aware but your dog is currently causing a noise nuisance in the neighbourhood by barking.

I have discussed this problem with the Mount Barker District Council which has suggested that as a first step, I express my concern to you, to allow you the opportunity to rectify the situation without recording an Official complaint against you on Council's file.

On the back of this letter is some information that may be of assistance to you in resolving the problem.

Your co-operation at this stage is all that is needed to avoid this matter progressing any further.

Your Neighbour,

Some simple tips for reducing barking

- Make sure that you do not reward your dog for barking too much. Don't let the dog inside or give it attention when it barks. Instead, give the dog attention when it is quiet.
- If the dog is barking at people or noises on the other side of a fence, move the dog to another part of the yard, or put up a barrier to keep the dog away from that area.
- If the dog barks at regular disturbances such as children walking to school or rubbish trucks, keep the dog inside or in an enclosed area at these times.
- If the dog races along a path or fence barking at passing distractions, put barriers or obstacles in the dog's way to slow it down.
- Ensure that the dog has adequate exercise and obedience training.
- If you have a large back yard, enclosing the dog in a smaller area to allow it to relax and wait for your return rather than run about barking, will allow the dog to believe looking after the place is not its responsibility when you are not home. This can be very stressful to dogs, they like to sleep.
- Insure the dog has an inviting comfortable shelter/bed/kennel so that it will want to sleep there rather than "guard" the property. Make sure that the dog has food, water and shelter from the weather.
- If the dog is barking through gaps and cracks in the fence, fill them in.
- If the dog is barking at people it can see passing by, try blocking the dog's view.
- An anti-barking collar may be useful for some, but not all.
- Teach the dog to stop barking on command. When the dog is barking give a firm command such as 'cease' and call the dog to you. Praise the dog when it stops barking. If the dog will not listen to you, it will need obedience training.
