Temporary Library Closure over Christmas Period
Media Release 4 November 2019

48,000 items are being packed, moved and stored during the Mount Barker Community library’s redevelopment.

The library will close for an extra week in December to allow for noisy and dusty renovation works to create a new entrance facing the carpark, replace old floor coverings, paint, improve the magazine and seating areas, local history room, computer room, and children’s area.

The library on Dumas Street is set to re-open in the New Year, following approximately $0.5m in renovation work that got underway in October.

“To help lessen work arounds and reduce daily inconveniences, we’ve decided to temporarily close the library so that works on replacing old floor coverings, repainting the walls and other renovations can take place,” explains Rebecca Jeffree, Library and Customer Service Manager.

“But the good news is alternative library services will be offered on line and there will be longer loan periods over the 2 week break” added Ms Jeffree.

In addition to a longer loan period customers will still be able to make use of the extensive online services to borrow eBooks and digital magazines, learn a language or skill and stream movies.

The library will be closed from Friday 13 December 2019 and will reopen on Thursday 2 January 2020.

“We apologise for any inconvenience caused whilst building works take place. Thank you for your patience,” added Ms Jeffree.
