

**MOUNT BARKER**  
DISTRICT COUNCIL

3 February 2022

**Media Release**

## Mayor's response to Govt announcement on freeway upgrade

"Council supports that something is being done to improve the safety of the freeway."

"The media release from the Minister references the significant growth in Mount Barker but it beggars belief that after four years of pleas from council including briefing the Premier and successive Transport Ministers, the State Government cannot commit to any position on delivering the remainder of the critical connector road in Mount Barker to service the rapid growth."

"Our community seeks that the Government acts on the Infrastructure South Australia Study, which has recommended the Government bring forward completion of the connector road as a priority now."
